Indonesian (Fluent)
English (Intermediate)

EDUCATION

Institut Teknologi Sepuluh Nopember – Bachelor's degree in Physics
2019-2024

MAN 2 Pontianak – Natural Sciences (MIPA)
2016 – 2019

PROFILE

Physics graduate with a strong interest in web interface development. Proficient in HTML, CSS, JavaScript, React.js, and Tailwind CSS, with a foundational understanding of Back-End development using Node.js and PostgreSQL. Enthusiastic about building responsive and interactive user interfaces.

PROJECT EXPERIENCE

Books Review Web Application – Personal Project
2025 – Present
Tech Stack: EJS, Express.js, Node.js, PostgreSQL.

- Designed and built a responsive web interface using EJS and CSS.
- Integrated an external API to dynamically display book covers.
- Developed CRUD features and managed data using PostgreSQL

Github Repository: github.com/irfanhadiProject/books-review

Weather Dashboard – Personal Project
2025
Tech Stack: React.js, Tailwind CSS, OpenWeatherMap API

- Built an interactive weather dashboard with city search functionality and dynamic API based data display.
- Managed state using React Hooks and implemented search history storage with localStorage.
- Applied responsive design and clean user interface using Tailwind CSS

Github Repository: github.com/irfanhadiProject/weather-dashboard
